

HOW TO CREATE A PRINT-READY FILE:

Banners for Barriers

The following instructions are designed to help you create a print-ready file. If after reading them you are still unsure about anything, please download the template, visit the FAQ section of our website, request a professional File Check or contact customer support.

1 FILE FORMAT

Send your file in PDF format (not password protected).

2 TILING

Tiling is not available for this product type.

3 COLOURS

All files should be sent in **CMYK** (cyan, magenta, yellow, black) format with the **Fogra 39 colour profile**.

Images in RGB or with PANTONE colours will be converted automatically using a standard colour separation profile. The same colour may vary slightly in appearance depending on the material onto which it is printed.

4 RESOLUTION

The optimal resolution for the print files is **between 100 and 150 ppi**.

5 ADDITIONAL INFORMATION

The minimum printable line weight is 0.5 pt.

6 TEMPLATE

CUSTOM SHAPE BANNERS FOR BARRIERS TEMPLATE

This product has been designed for 250 x 110 cm barriers. **Always download the template** for the product you purchased from the website and use it as the basis for positioning your artwork: this will make it easier to create a print-ready file.

Insert your artwork on the 'Artwork' layer, delete all the guidelines except the green line(the bleed margin) and save the file as a high quality PDF.

WARNING: Do not alter the scale of the design, and do not resize the template. Do not use the spot colours Artios_Cut and Artios_Crease in the file, as they will not be printed.

WARNING: Do not place important artwork outside **the safe area, as it will not be clearly visible on the finished product**.

RECTANGULAR BANNERS FOR BARRIERS TEMPLATE

This product has been designed for 250 x 110 cm barriers. **Always download the template** for the product you purchased from the website and use it as the basis for positioning your artwork: this will make it easier to create a print-ready file.

Insert your artwork on the 'Artwork' layer, delete all the guidelines except the green line(the bleed margin) and save the file as a high quality PDF. This product can be printed on the front only, or double-sided, either with the same design on the front and back or different designs on the front and back.

WARNING: Do not alter the scale of the design, and do not resize the template. Do not use the spot colours Artios_Cut and Artios_Crease in the file, as they will not be printed.

WARNING: Do not place important artwork outside **the safe area, as it will not be clearly visible on the finished product**.

CUSTOM SIZE RECTANGULAR BANNERS FOR BARRIERS TEMPLATE

If you need to cover a barrier with dimensions other than 250 x 110 cm, use our custom size product.

Download the template for your chosen product from the website and use it as the basis for your work: **you will find the dimensions you gave when ordering, the bleed** and other guidelines already correctly set up. Insert your artwork, **delete all guidelines except the bleed margin (green line)** and save the file as a high-quality PDF without crop marks.

This product can be printed on the front only, or double-sided, either with the same design on the front and back or different designs on the front and back.
